

PROFILE

Passionate about technology and new trends. I think that the use of programming and data science is important to reduce repetitive tasks, which I don't like as they take up productive time. I am interested in acquiring new knowledge, expanding work tools to define fast and precise methodologies, I can adapt to changes since I am an enemy of monotony and therefore, I find in data science my greatest taste, due to its variety of cases of study which lead me to be in constant learning.

JUAN CAMILO GOMEZ CABANZO

ML engineer/ MLOps

EDUCATION

ACÁMICA

01/2020 – 08/2020
Data Science. My first course of the data world, it taught me how to start and follow in this amazing area.

Instituto Tecnologico Metropolitano

2018 - Nowadays
Telecommunications engineering

Politécnico Colombiano Jaime Isaza Cadavid

2011 - 2014
Telecommunications technologist

WORK EXPERIENCE

CloudX - ML/data Platform

05/2022 - Nowadays
end-to-end support and development of a data platform that integrates from data engineering to a complete ML pipeline under the AWS platform, integrating services such as AWS Glue, Lambdas, Stepfuctions, ECS, Sagemarket, EMR, deployed with infrastructure developed with AWS SDK and Terraform through Jenkis.

Trascender Global - ML engineer/ MLOps

08/2020–05/2022
Execution of end-to-end solutions using all the states to run a ML project: Data cleaning, processing. Feature engineering and models training using Python libraries such as Scikit Learn, Pandas,Numpy Pycaret,(Tracking models with MLflow, Weights & Biases), DL frameworks such as PyTorch, creation of APIs with FastAPI, and deploy with Docker on AWS cloud using Ec2, ECS,EKS, Lambda, Sagemaker), data version control with DVC, Pipeline Orchestration with GitHub actions and model monitoring with Aporia.

Decom S.A.S Post-processing leader

02/2019–07/2020
Responsible for the review, analysis and veracity of the information provided from the measurements of the NPO area (network planning and optimization), Developed new tools integrating Python, SQL, VBA, Ionic (Typescript, HTML, CSS).
